

MOTOR TREATMENT

INTERNAL ENGINE AND CRANKCASE CLEANER

CRC MOTOR TREATMENT cleans and lubricates internal fuel and oil systems for a smoother-running engine, increased MPG, restored power and reduced emissions. Use on all 2-cycle, 4-cycle and rotary engines.

ADD TO FUEL

▲ Removes moisture and stabilizes fuel. Great for engine storage. Works in gasoline, diesel and ethanol fuels. For a more aggressive cleaning, add directly into the combustion chamber through a vacuum line.

ADD TO OIL

▲ Prevent chunks of sludge from clogging oil flow. Removes moisture from oil.

- ▲ Cleans fuel injectors, carburetor jets, intake valves and pistons.
- ▲ SYN-GO® technology leaves behind a synthetic lubricant for added protection against the drying effect of ethanol in fuels and lubricates the upper cylinders.
- ▲ Liquefies built-up gum and varnish and slowly releases carbon deposits cleaning sticky valve lifters, piston rings and PCV systems, while you drive.
