THE CRC SMARTWASHER A SMARTER & SAFER SOLUTION

The CRC SmartWasher is a manual parts washer that replaces traditional solvent or aqueous alternatives. It uses a non-hazardous, non-flammable, water-based degreasing solution that offers a superior cleaning performance as powerful as solvents while being safer for the user. The SmartWasher will meet the needs of modern businesses’ parts washing requirements. The CRC SmartWasher utilizes the natural process of bioremediation to break down and convert oil, grease and carbon-based contaminants into harmless by-products of CO₂ and water. The bioremediation process reduces liquid hazardous waste streams and reduces the release of harmful pollutants into the environment.
