

Risk Reduction Partnership Plan™

1 Develop Targets & Plan

2 Analyze Products

3 Recommend Process Improvements

4 Product Training

5 Provide Documented Cost Savings

1

Develop Targets & Plan

- Determine company or department goals and target improvement areas

2

Analyze Products

- Conduct an in-depth survey to analyze product use and applications

3

Recommend Process Improvements

- Identify product duplication and risks
- Maximize compliance
- Improve productivity

4

Product Training

- On-site support and training provided by experienced sales team
- Safety training with "Safety Shorts" seminars

5

Provide Documented Cost Savings

- Evaluate total ownership costs
- Quantify and document savings
