Follow these steps to perform a complete fuel system service using quality, high-performance products from CRC.

STEP 2

With engine running, spray into throttle body until can is empty.

NEW
For GDI & PFI Engines

CRC GDI IVD™ Intake Valve & Turbo Cleaner SKU # 05319

Clean intake valves and turbos like never before! Patent-pending technology from CRC reaches intake valves at 150X the concentration of premium fuel additives. PEA detergency in concentrations high enough to remove baked-on carbon deposits.

No more top engine disassembly required to clean intake valves on GDI (gas direct injected) engines. PROVEN to remove up to 46% of deposits after the first use.

Real Tests • Real Data • Real Results

STEP 4

Spray down the throttle body and wipe with cloth.

CRC Throttle Body & Air-Intake Cleaner SKU # 05078

Removes the dirt, carbon and debris from inside the throttle body on the throttle plate and butterfly valve that reduces air flow and causes parts to stick.

Safe on coated throttle bodies.

Follow up with a clean or new air filter and your FUEL SYSTEM SERVICE is complete.
